PRODUCT GUIDE

HYDAN
SAFES

www.**hydansafes**.com

Established in 2020; A dual partnership with vast experience in Safe production, engineering and sales. Our main focus being on British manufacturing, with a keen eye for detailed perfection and satisfaction is what drives us.

Underfloor safes

Hydan Safes are masters and manufacturers of premium underfloor safes. Our dedicated teams desire to continue the manufacturing of traditional underfloor safes has led us to redesign a new range of products that emulate the same quality and durability we used to make years ago, but using today's modern materials, techniques and processes.

Free Standing Safes

Our free-standing safes are suitable for both home and business, carefully selected for their excellence in quality, reliability, security and value for money. Having a small but comprehensive range means that finding the right product to match your customer requirements is a simple process.

Floorsafe spares

Did you know that we also offer replacement Safe parts, doors and bodies to suit various earlier models of floorsafes that have seen better days.
